IIIT Hyderabad Invites Applications for **Database Administrator** · 1 Position

The International Institute of Information Technology Hyderabad is a world-class institution offering B.Tech., Master of Science by Research, Dual Degree (BTech + MS), MTech, and Ph.D. programs.

**Job Description**

As a Database Administrator, you will be responsible for managing and maintaining the institute’s databases. You will be responsible for ensuring that the databases are secure, reliable, and efficient and meet the needs of the institute.

**Job Responsibilities**

- Install, configure, and maintain databases.
- Develop, maintain, and optimize database backup and recovery procedures.
- Troubleshoot database issues and provide timely resolution.
- Manage database security by defining user roles, permissions, and access levels.
- Develop and maintain documentation related to the databases.
- Stay up to date with emerging trends and technologies in database administration.

**Skills & Experience**

- Bachelor’s degree in computer science, Information Technology, or a related field
- 3+ years of experience as a Database Administrator
- Strong proficiency in SQL and database management systems (e.g., Oracle, SQL Server, MySQL)
- Knowledge of database architecture and design principles
- Familiarity with database backup and recovery procedures
- Strong analytical and problem-solving skills
- Excellent communication and collaboration skills
- Ability to work independently and as part of a team.
- Certification in database administration (e.g., Oracle Certified Professional, Microsoft Certified Database Administrator) is a plus.

**Type of Role:** Consolidated position with a 1-year contract initially, which may be renewed based on performance and Institute’s needs.

**Pay:** Consolidated salary starts from **Rs. Rs. 7 Lakhs/annum** and considerations with experience or as per Institute’s norms.
