IIIT Hyderabad Invites Applications for the Position of

Faculty of Arts

The International Institute of Information Technology Hyderabad is a world-class Institution ranked No. 6 in India offering BTech, MS by Research, Dual Degree (BTech + MS), MTech, and PhD programs. The Institute has large research centers with 578 Research scholars working on wide-ranging topics.

IIITH, set up by prominent Indian academicians is neither funded by any Government nor by any specific industry/family, it is a truly public institute.

International Institute of Information Technology Hyderabad invites applications for Faculty of Arts to design and teach an experiential two-credit Art course for first-year BTech students, focused on artistic practice, creative expression, personal growth, and aesthetic appreciation.

Role Overview

The Faculty of Arts will design and facilitate an experiential art course as part of the BTech first-year 2-credit Art course requirement. The course is intended to introduce students to artistic practices, artistic experiences, and their relevance to personal growth, creative expression, discipline, social relationships, and aesthetic appreciation.

The faculty member will engage students in artistic learning through discussions, practical training, reflective exercises, and performative experiences.

Key Responsibilities

- Design and deliver an engaging experiential art curriculum for first-year BTech students.
- Introduce students to various artistic practices and creative processes.
- Facilitate discussions on the role of art in personal development, emotional awareness, social interaction, and cultural understanding.
- Conduct practical and performative sessions that encourage participation and experiential learning.
- Create an inclusive and collaborative classroom environment that promotes creativity and self-expression.
- Assess student participation, engagement, and learning outcomes in alignment with course objectives.
- Collaborate with academic and administrative teams for smooth course implementation.
- Contribute to the development of innovative interdisciplinary approaches integrating arts into technical education.

Key Competencies

- Master's degree in any art form from a recognized institution.
- Demonstrated experience in artistic practice, teaching, training, or performance-based learning.
- Strong communication and facilitation skills.
- Ability to engage and motivate students from diverse academic backgrounds.

Preferred Qualifications

Preference will be given to applicants specializing in:

- Dance
- Theatre

Desired Attributes

- Passion for arts-based education and experiential learning.
- Ability to inspire creativity and reflective thinking among students.
- Openness to interdisciplinary collaboration.
- Strong interpersonal and mentoring abilities.

Eligible and interested candidates are invited to apply with their detailed CV, portfolio (if applicable), and a brief statement of teaching philosophy and artistic practice at
